

NATAN
WORLDWIDE DISASTER RELIEF

Call for Volunteers – Dentists and Dental Assistants

NATAN is expanding the activities of our mobile dental clinics in Israel.

NATAN currently has 2 mobile dental clinics equipped with everything needed for high-level dental care in any location.*

We provide basic treatments such as fillings, extractions, treatment of gum problems and preventative dentistry. We do not perform complex procedures or dental implants.

For the past year we have been running the clinic in women's shelters. We intend to expand the service to reach underprivileged populations throughout Israel. This activity will take place throughout Israel (currently active in Haifa and Beer Sheva).

We are looking for volunteers to staff our mobile dental clinics around the country.

- Each volunteer shift is approximately 6 hours.
- A commitment of 6 shifts per year is required as a minimum.

In addition to the activities of the mobile clinics in Israel, NATAN has a number of projects in the field of dentistry abroad – also staffed by volunteers. Priority for overseas assignment will be given to teams who have volunteered in Israel:

- Refugee Clinic for Women from Venezuela located in Colombia, the clinic for women and children also includes a dental clinic. The duration of the project is about three years.
- Dental project in rural Ethiopia, in collaboration with the Ethiopian Church and the Humble Smile Association. This project is currently on hold due to the corona pandemic.

For more details and to register: <https://natanrelief.org/join-us>

Email to: volunteers@natanrelief.org

* The mobile clinic includes: a portable patient's chair and a doctor's chair, X-ray equipment and all the equipment and materials required for treatment. The entire clinic is packed in 5-6 suitcases and is transported in a trailer, pickup truck or minivan. Every dental volunteer will receive training and instruction in the use of the mobile equipment.
