Dignity Kits Promote Health — at Scale

NATAN is responding to a profound, personal and universal human need !!

Every month, women and girls in Khan Younis, southern Gaza, suffer humiliation, isolation and social shame — simply because they bleed.

The persistent lack of access to basic menstrual products leaves women and girls vulnerable, without safety, comfort, or personal dignity.

NATAN Dignity Kits

Our kits provide women with four washable, reusable cotton pads — a year's supply — to counter social humiliation and isolation, promote autonomy, and nurture personal independence.

With our partners at the Gaza Children's Village, we have delivered 2,000 pads in Khan Younis, offering 500 women and girls clean and comfortable menstrual products.

NATAN's Dignity Kits are welcomed by women who've received them — and celebrated in the press as an apolitical, humanitarian initiative
